## MOBILE PRO 1

COMPACT

INNOVATIVE

VERSATILE

DURABLE

## DESIGNED WITH THE OFFICE IN MIND

### MOBILE INNOVATION

With the invention of the MP1, Mobile Anesthesia Solutions facilitates the transport of hospital-grade anesthesia equipment into the comfort of the office. Designed to meet the needs of office-based anesthesia and transport, this streamlined anesthesia cart can transform from simple to complex to meet the needs of your surgery.

- ✓ **Compact.** The MP1 boasts the smallest footprint on the market. It delivers professional solutions when space is limited
- ✓ **Innovative.** From the large absorbent casters on the base to the clever IV pole attachment on top, the MP1 delivers innovation at every level.
- ✓ **Versatile.** Designed to expand vertically, the MP1 maintains a small footprint that adapts to the nuances of the office environment and transportations requirements.

- ✓ **Durable.** Built tough to withstand the rigors of a mobile practice. Contoured lines with anodized surfaces provides a sturdy state-of-the-art look

### WHY THE MP1

- ✓ Quality Penlon components
- ✓ Professional look
- ✓ Nitrous capability including e-cylinder attachments
- ✓ Large capacity warmed absorbers
- ✓ Ventilator capability
- ✓ Modular accessory components
- ✓ Accessory power outlets
- ✓ Professionally designed and manufactured

## OPTIONAL IV POLE

A quick connect IV pole provides a handy spot for fluid and cable management systems. It eliminates the need for creative places to place IV bags and monitor cables.

## OPTIONAL VENTILATOR

A quick-connect modular shelving system allows for seamless integration of a touchscreen ventilator as well as volume and pressure ventilation plus SMMV, SIMV, PSV and PEEP.

## MERCEDES METRIS

## ANODIZED SURFACE

Anodized surfaces protect against corrosion and abrasion. Aesthetically, the surface is smooth and clean.

## MEASUREMENTS

44" tall x 20" wide x 26" deep  
190 lbs standard option  
225 lbs with vent option

## OXYGEN AND NITROUS E-CYLINDER YOKES

Integrated e-cylinder yokes provide oxygen and nitrous capabilities when wall supplies are unavailable. They also provide a quick back up source of oxygen should wall systems fail.

## POWER STRIP AND CORD MANAGEMENT

Power outlets are conveniently embedded along the main frame of the cart. A hook on the back provides storage for cables and hoses during transport.
